jtcowin@yahoo.com | Remote (US) | Open to relocation

PORTFOLIO & CASE STUDIES: **johncowin.com** | **LINKEDIN:** **linkedin.com/in/johncowin**

Web3 marketing strategist with 13+ years across positioning, content, community, audience growth, and multimedia production, including 5+ years in crypto and DeFi. Currently lead product marketing, technical communications, partnerships, campaigns, and growth at Bolt Liquidity after managing social and community operations for Phi Labs Global.

CORE EXPERTISE

Product Positioning | Go-to-Market Strategy | Growth Marketing | Messaging Architecture | Social & Content Strategy | Community Growth | Ecosystem Partnerships | Technical Communications | Creator & KOL Marketing | Event Activation | Video Production & Direction

PROFESSIONAL EXPERIENCE

Marketing & Growth Manager | Bolt Liquidity | Oct 2025 - Present

Remote

- Joined Bolt pre-launch and helped advance integrations with Cetus, Aftermath, and FlowX as the protocol grew from $0 to $300M+ in processed volume.
- Built a multi-document marketing foundation from six stakeholder interviews, translating technical complexity into positioning, audience strategy, messaging, competitive research, and reusable copy systems.
- Rebuilt outdated GitBook documentation into a 27-page Mintlify system, owning information architecture, technical writing, MDX implementation, and GitHub publishing with engineering and design.
- Conceived and led Bolt Liquidity's flagship animation campaign; in its first 48 hours, it generated more than 16x typical post reach, with website traffic up 140% and technical-documentation traffic up 153%.
- Directed a Trezor lifestyle campaign whose featured post generated 524% more impressions and 2.2x average engagement, ranking #2 by reach across the account's preceding 60 posts.
- Co-led creator activations across Greece, Costa Rica, and Singapore; led co-sponsor strategy, creator coordination, creative direction, on-site production, approvals, distribution, and reporting.
- Owned organic distribution and search visibility across X, Telegram, web, SEO, AEO, and GEO while producing technical explainers, event films, creator campaigns, and 10 long-form articles.
- Led Bolt Liquidity's Sui Summit presentation and represented the brand at ETHDenver and TOKEN2049; advanced Sui Foundation and Mysten Labs discussions into a 20+ stakeholder working group exploring a prospective pilot.

Social Media Manager | Phi Labs Global | Aug 2024 - Oct 2025

Remote

- Managed social and community operations for Archway, a Layer 1 blockchain, and Ambur Marketplace, an NFT marketplace, across X, Discord, and Telegram for a combined audience of 200,000+.
- Planned and executed social campaigns, product education, announcements, partner content, speaking opportunities, and community activations.
- Coordinated messaging and execution across product, community, developer relations, partnerships, and design while relaying community feedback and escalating issues to internal teams.

Web3 Social Media Consultant | Selected DeFi Projects | 2021 - 2024

Remote | Avalanche & Ethereum

- Managed social and community communications for early-stage DeFi projects across Avalanche and Ethereum, publishing product updates and educational content across X, Discord, YouTube, Medium, LinkedIn, and blogs.
- Supported communities of approximately 15,000 to 40,000, including a 17,000-member Discord, serving as liaison between project teams and a five-person moderator team while handling member questions and ongoing engagement.

Independent Music & Marketing Operator | Self-Employed | 2009 - 2020

United States

- Built and operated a professionally managed, globally distributed music project streamed in 80+ countries and performing 140+ shows annually, including major festivals, FM radio, and television.
- Secured a global distribution agreement with a Sony Music subsidiary and sponsorship from an international equipment manufacturer.
- Served as day-to-day tour manager, booking agent, and drummer; owned branding, digital marketing, websites, e-commerce, budgets, logistics, scheduling, and performance agreements.
