JOHN COWIN

WEB3 MARKETING STRATEGIST | PRODUCT, CONTENT & COMMUNITY

jtcowin@yahoo.com | johncowin.com | Remote | Open to relocation

Web3 marketing strategist with 13+ years across positioning, content, community, audience growth, and multimedia production, including 5+ years in crypto. At Phi Labs Global, expanded from social media into product messaging, technical documentation, creator partnerships, events, and integrated campaigns for Bolt Liquidity.

CORE EXPERTISE

Product Positioning | Messaging Architecture | Social & Content Strategy | Community Growth | Technical Communications | Creator Marketing | Event Activation | Video Production & Direction

PROFESSIONAL EXPERIENCE

Social Media Manager | Phi Labs Global | Aug 2024 - Present

Remote

- Expanded from social media into cross-functional ownership spanning product positioning, technical communications, creator partnerships, events, and marketing operations during the transition from Archway to Bolt Liquidity.
- Built a multi-document marketing foundation from six stakeholder interviews, translating technical complexity into positioning, audience strategy, messaging, competitive research, and reusable copy systems.
- Rebuilt outdated GitBook documentation into a 27-page Mintlify system, owning information architecture, technical writing, MDX implementation, and GitHub publishing with engineering and design.
- Co-led creator activations across Greece, Costa Rica, and Singapore; led co-sponsor strategy, creator coordination, creative direction, on-site production, approvals, distribution, and reporting.
- Directed a Trezor lifestyle campaign whose featured post generated 524% more impressions and 2.2x average engagement, ranking #2 by reach across the account's preceding 60 posts.
- Owned organic channels across X, Telegram, LinkedIn, YouTube, and web while producing technical explainers, event films, creator campaigns, and 10 long-form articles from concept through distribution.
- Led Bolt Liquidity's Sui Summit presentations and represented the brand at ETHDenver and TOKEN2049, extending event participation into ecosystem distribution, strategic relationships, and integration opportunities.

EARLIER EXPERIENCE

Web3 Marketing Consultant | Selected DeFi Projects | 2021 - 2024

Remote | Avalanche & Ethereum

- Managed social and community communications for early-stage DeFi projects across Avalanche and Ethereum, publishing product updates and educational content across X, Discord, YouTube, Medium, LinkedIn, and blogs.
- Supported communities of approximately 15,000 to 40,000, including a 17,000-member Discord, serving as liaison between project teams and a five-person moderator team while handling member questions and ongoing engagement.

Independent Music & Marketing Operator | Self-Employed | 2009 - 2020

United States

- Built and operated a professionally managed, globally distributed music project streamed in 80+ countries and performing 140+ shows annually, including major festivals, FM radio, and television.
- Secured a global distribution agreement with a Sony Music subsidiary and sponsorship from an international equipment manufacturer.
- Served as day-to-day tour manager, booking agent, and drummer; owned branding, digital marketing, websites, e-commerce, budgets, logistics, scheduling, and performance agreements.
